TOP DOCTORS
2017

Methodology: Marin Magazine conducted a 2015 survey that has resulted in this [415] Top Doctors list – top physicians practicing in San Francisco and Marin counties who received multiple independent recommendations from their peers. The list was rechecked again this year. The survey process started with a list of more than 3,000 licensed doctors across all specialties in both counties. All doctors on this list were both candidates and eligible voters in the peer-to-peer voting poll. Doctors were allowed to cast an unlimited number of votes across all specialties – they could vote for as many doctors as they wanted regardless of specific area of expertise – but they could only vote for the same doctor once.
